

Power Of Praise And Worship

Lesson One

Welcome to this course on the Power of Praise and Worship. This course uses as a textbook a book of the same name: The Power Of Praise And Worship by Terry Law with Jim Gilbert. We will be going through this very practical book together where Terry Law shares some of his deepest pain and highest victories along with the Biblical principles which God has used to make him a world-changer through the power of the Holy Spirit. Join us on this journey today. If you have not purchased a copy of this book you need to do so before continuing with the lessons. It is available both as a paperback and as an instant Kindle download.

The way we are going to proceed through this course is by reading an assigned section of the book and answering questions from that section. In the next lesson will be a video where we will take up the answers to the questions "in class" and make additional comments. Before moving to the next lesson, be sure to complete the assignment.

Read the Introduction and the first two chapters to get an understanding of where Terry is coming from. There are no questions in the Introduction and Chapter One. Answer these questions from Chapter Two.
